## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,862,956 to Brandenburg et al.

Brandenburg shows a dispensing system as seen in Fig.2. having a valve plate 22, a cover 16 releasable attached to the base 12 by first hinge 26 and second hinge 32, see Fig. 4, movement of the first hinge exposes the base for loading or unloading a container, movement of the first hinge is prevented unless the cover is detached from the first hinge. Brandenburg also shows a back plate 14, where the content of a container is adapted to be primed and pump out of the container by back plate 22 and actuator 18.

### *Allowable Subject Matter*

3. Claims 4-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### *Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Swallert shows a measuring device. Chen shows a press-type perfume sprayer. Christine ('083) shows a liquid dispensing system. Christine ('562) shows a liquid dispensing.
